GRADUATE PROGRAM IN APPLIED PHYSICS

Overview

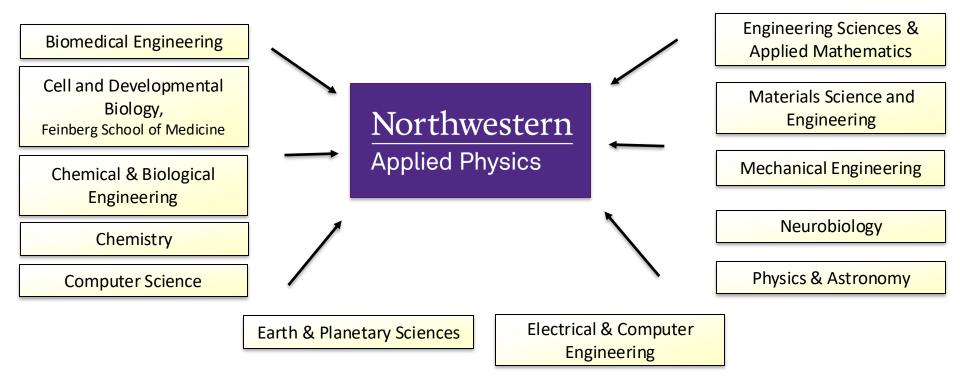

Northwestern

Affiliation:

2 Schools, more than 10 Departments/Programs

WEINBERG COLLEGE OF ARTS & SCIENCES

Program Team

Nate Stern

Weinberg Co-Director

Pedram Khalili

McCormick Co-Director

Director of **Graduate Studies**

Michelle Driscoll Mahdi Hosseini

Admissions Chair

Clarence Morales

Program **Assistant**

Your contacts

Clarence Morales, Program Assistant Tech F237 (847) 491-5455 appliedphysics@northwestern.edu

Michelle Driscoll, Director of Graduate Studies

Mahdi Hosseini Admissions Chair

Student Council

Emmanuel Aneke eaneke@u.northwestern.edu

Samira Khan samirakhan2028@u.northwestern.edu

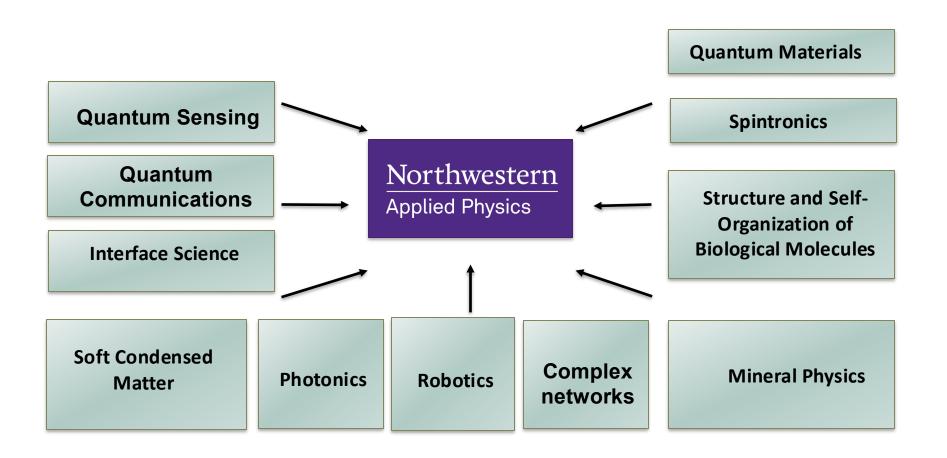

Maggie Quinn margaretquinn2026@u.northwestern.edu

Gina Talcott ginatalcott@u.northwestern.edu

Core Disciplines

Collaborative Research Centers and Institutes

PAULA M. TRIENENS INSTITUTE FOR SUSTAINABILITY AND ENERGY

CMQT (

CENTER FOR MOLECULAR
QUANTUM TRANSDUCTION

Institute for Cellular Engineering Technologies

Why become an AP student at NU?

We need you:

your skills and talent, your unique ideas and perspective

Unique Research Opportunities

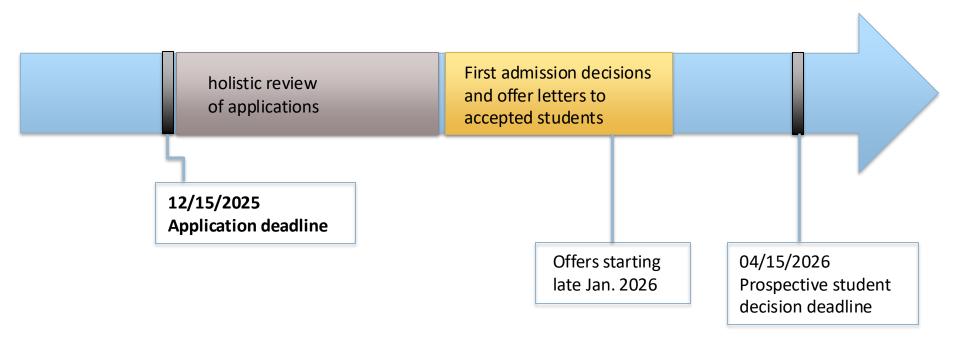

- interdisciplinary, multiple departments
- many faculty members (experiment, theory)
- new QIS centers

Start your own research early (second quarter!)

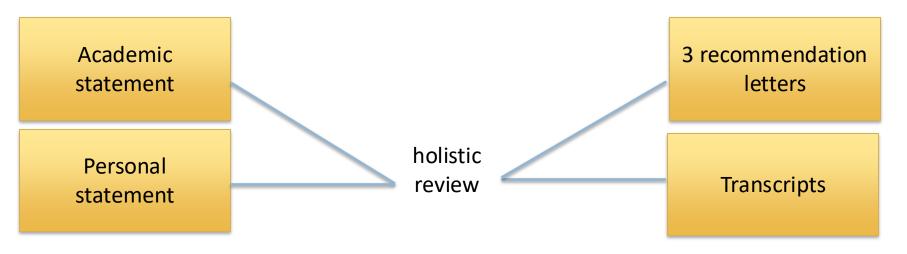

interact with AP students and faculty doing research in a variety of disciplines

Applying to NU Applied Physics: Timeline

Applying to NU Applied Physics: Application

Content of your application

Optional

[GRE Physics]

Not required for applications submitted in 2025 for fall 2026 enrollment*

*If GRE Physics scores are submitted, the admissions committee will review them as part of a holistic evaluation of the applicant's academic preparation in physics

Applying to NU Applied Physics: Statement of Purpose

- Tell your story!
 The admissions committee and faculty want to get to know you
- Why Applied Physics?
- **What inspires you?** What drives you? What makes you different?
- Mention faculty you might be interested in working with.
- If applicable, mention any research experience.
- Mention obstacles you faced, and how you managed to overcome them.
 Resilience and determination are strengths!

Program Components & Goals

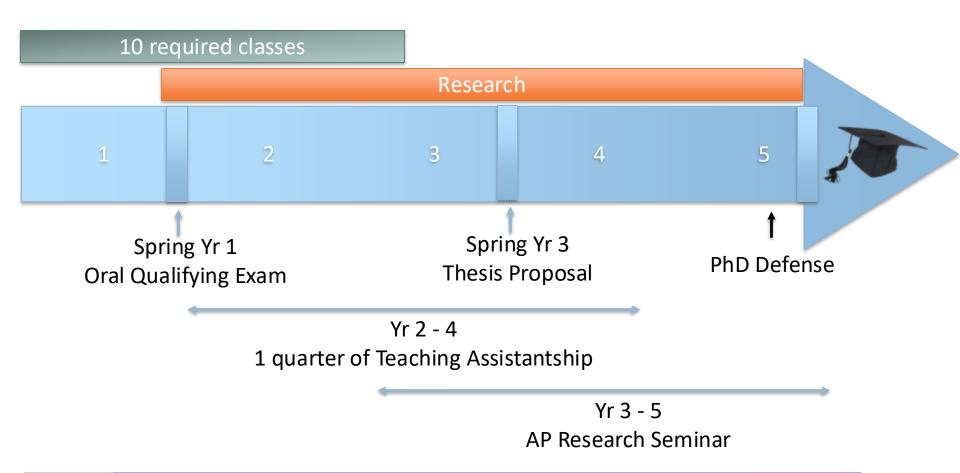

provide you with a solid foundation in **physics**

enable you
to become an
independent
researcher

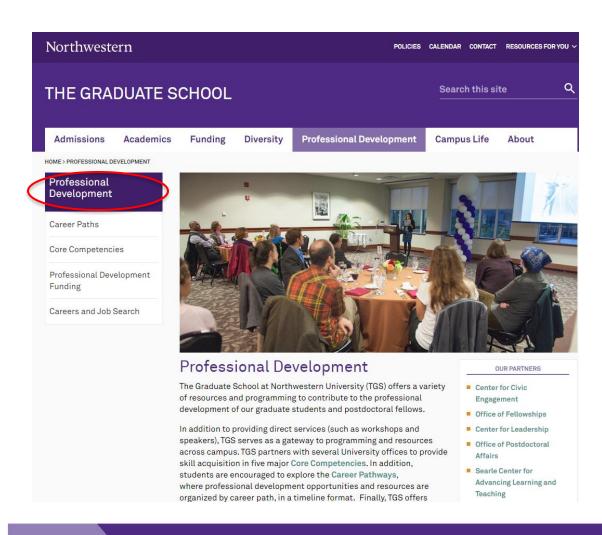

prepare you for and assist you in planning and realizing your

career plans

PhD Timeline: 5-year program

Professional Development

- Career Exploration
- Leadership and Management
- Speaking and Presenting
- Teaching
- Writing and Research

Applied Physics Faculty

~ 50 faculty members in:

- Biomedical Engineering
- Cell and Developmental Biology, Feinberg School of Medicine
- Chemical & Biological Engineering
- Chemistry
- Computer Science
- Earth & Planetary Sciences

- Electrical and Computer Engineering
- Engineering Sciences and Applied Mathematics
- Materials Science and Engineering
- Mechanical Engineering
- Neurobiology
- Physics and Astronomy

As of Sept. 2025

Courses

First Year

Second Year

Fall

MAT SCI 401: Chemical & Statistical Thermodynamics of Materials or PHYS 416: Introduction to Statistical Mechanics (Winter Yr1)

PHYS 412-1: Quantum Mechanics

PHYS 411-1: Methods of Theoretical Physics

GEN ENG 519: Responsible Conduct of Research Training (not for credit)

Winter

PHYS 412-2: Quantum Mechanics

PHYS 414-1: Electrodynamics

PHYS 416-0: Introduction to Statistical Mechanics

or MAT SCI 401: Chemical & Statistical Thermodynamics of Materials

(Fall Yr1)

MAT SCI 405: Physics of Solids*

or PHYS 422-1: Condensed Matter Physics (Fall Yr2)

Before the end of year 3

Computational Methods of Applied Physics

Experimental Methods of Applied Physics

2 Electives

Fall

PHYS 422-1: Condensed Matter Physics or MAT SCI 405: Physics of Solids (Spring Yr1)

Start your own research

*if schedule does not conflict with other required classes, otherwise Winter of year 2

Graduate Students

Aziz Abo go da Sauls group

Prayan Chakravarthy First Year Stu dent

Junhang Wasielewski group

Swan Htun Jacobsen

(Peter) Lim Hersam/ Dravid groups

Margaret Quinn Rondinelli group

Madis on Sch winn Chen group

Swearer Group

Aneke Jacobsen group

Emmanu el

Shu Chen Petford-Long/ Phatak Groups

Eastman Kum ar group

Joseph. Humph ries First Year Stu dent

Jacobsen/ Pankuch groups

Rohan Rajmoh an Koch group

Antara Sen Olvera de la Cruz Group

Mauricio Angelone Jacobsen group

Tse-Min Chiang Schatz group

Matthew Farnese Olvera de la Cruz group

Ubaid Kazianga Sargent group

Chen Lu First Year Student

Lawrence Rhoads Grayson

Neil Shah First Year Stu dent

Parker Watts Wasielewski group

Arpaci Khalili group

Gregor Dairaghi Od om. T.

Jennifer Garland Petford-Long group

Samira Driscoll

Eric Matt Khalili group

William Rogers Rondinelli

Banibrato Sinha Khalili group

Noah Welke group

Matthew Liam Beaudoin First Year student

Arya Desai First Year Stu dent

Gamze Gul Kumar

Trevor Kling Hoss ein i group

Enn is Mawas Kamal group

Benjamin Roter Jacobsen

Gina Talcott Kum ar group

Joseph Yaker Koch / Romanenko

Matthew Capocci Koch group

Vin San Dinh Koch / Romanenko

Kara **Hoken stad** Kumar

Wing-Shun Backman / Dravid

Panthee Ch an dras e--khar group

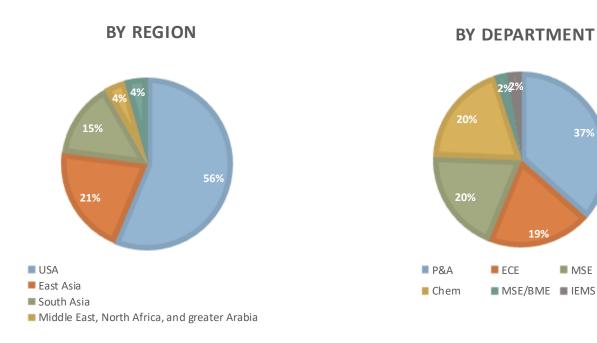

Yi Wang Od om.T. group

Tianp u Zhao Koch Group

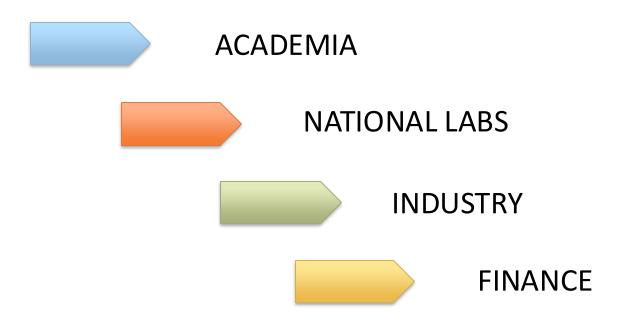

Statistics AP Students

TOTAL: 48 STUDENTS

As of Sept. 2025

Where do our Alumni work?

Where do our Alumni work? Examples

Stanford

University

4DUPONT

Beyond Northwestern

City of Evanston

- Population of ~75,000.
- Convenient, quiet.
- Quick and easy connections to downtown Chicago. (Metra: ~20 mins)

City of Chicago

- Population of 2.7M
- Great museums, restaurants, sports, culture,...
- And beaches!
